# Foreword

I am glad to see the 'Catalogue of Theses and Dissertations', which are available in the University Central Library. This is the first publication of our University Library. The Catalogue contains 285 entries arranged in a classified order followed by three indices one each for Authors, Supervisors and Subjects.

I am sure that this Catalogue will be useful to research workers and teachers not only in this University but elsewhere also. I congratulate the University Library staff on this piece of good work and hope that such bibliographical aids will continue to be brought out by them from time to time.

# I N T R O D U C T I O N

It is with great pleasure that we present to our research scholars and teachers this 'Catalogue of Theses and Dissertations', that have been accepted for the Doctoral and Post-graduate degrees by the University of Udaipur and are available in this Library. The total number of Theses and Dissertations covered by this Catalogue is 285, out of which only 8 are for the Ph.D. degrees. The Catalogue has two parts - one Classified and other Dictionary, besides preliminary pages such as Foreword, contents, etc. A key 'How To Use' the Catalogue and a summary of Classification Schedule have been given for the benefit of our users.

The speciality of our theses collection is that each document makes a subject study of some special problems connected with a particular geographical area of Rajasthan. Of course, the district of Udaipur figures the most, but some problems as sheep and camel of Bikaner, plant diseases at Jobner and package plan of Pali have also been studied in details. Besides, labour problems of industries at Bhilwara, Jaipur and SawaiMadhopur are also covered. A few selected case studies also relate to the social and/or industrial problems of the cities of Bhiwani, Hoshiarpur, Kanpur, Delhi and Kottayam.

There has been tremendous growth of literature in the universe of knowledge and the researchers have been finding it extremely difficult to know all the published material. Thus much of useful literature like the University Theses and Dissertations in India goes unreported. Sometimes such omission results in duplication of labour on part of research personnel in the very same University, resulting in waste of precious time, energy and money. It has therefore, become a duty of the Librarian of the relative University to report from time to time the Theses and Dissertations approved by the University and available in his Library. We hope that the present Catalogue shall prove a useful bibliographical tool to the research workers and teachers of the three Universities in Rajasthan, and also elsewhere.

The undersigned feels thankful to Sarvashri S.M.S. Bhargava and S.N. Natani, Assistant Librarians for their valuable assistance in compilation of this Catalogue and to Shri C.K. Purushothaman for typing and cyclostyling the same.

All suggestions to improve this work are most welcome.

# HOW TO USE IT

The present publication has been brought out as a bipartite Classified Catalogue. It has therefore, two parts - Classified Part and Dictionary Part, besides the preliminary pages such as title page, foreword, contents, etc.

## 1 CLASSIFIED PART

This part gives full information about all the Theses and Dissertations held by the Library. The arrangement of entries in this part is by Call Nos. and is, therefore, filiatory. While deciding the form of entry, the 'Classified Catalogue Code by Dr. S.R. Ranganathan' and the 'L.C.Rules for Descriptive Cataloguing' have been taken into account. This part contains 285 entries. A summary of classification schedules is also given.

### 1.1 Subject Headings

The Main classes with their class numbers are given in capital letters like 'B MATHEMATICS', 'D ENGINEERING', 'J AGRICULTURE', etc. The sub-headings are given in ordinary letters as 'B396M3 Integral functions', 'D6,8(KZ31:7) Dairy Machinary', 'J16 Floriculture', etc.

### 1.2 Entry

There are seven sections of the Main Entry.(A sample given below)

| | |
|---|---|
| Section 1 | JOgY:3 K4 |
| Section 2 | DADHICH (Chandra Kant). |
| Section 3 | Factors affecting adoption, non-adoption and reversion of improved agricultural practices. |
| Section 4 | 182p fig. tables appendix. |
| Section 5 | Bibliography:p138-143. |
| Section 6 | MSc Ag 1964: K Rathore. |
| Section 7 | 578 |

Section 1

As will be seen from the above entry, the section 1 i.e. the leading Section records the Call No. (Class No. and Book No.) - 'JOgY:3 K4'. This section starts from the 1st indention.

Section 2

This section gives the name of Author (surname first, in capital letters) and initials. in circular brackets as "DADHICH(Chandra Kant)" as above. Sec. 2 to 6 start from the 2nd indention.

Section 3

Here is given the full title of the document - "Factors affecting adoption ... practices", in the present case.

Section 4

In this section are given the number of pages contained in the document plus other information such as figures, diagrams, plates, tables, appendix etc., as the case may be.

Section 5

This section denotes bibliography with relative page numbers, if provided in the document. In the above document, the bibliography runs from page 138 to 143.

Section 6

This comprises of three parts. (i) the degree for which the Dissertation or Theses has been submitted, (In case of Master of Science in Agriculture degree " MSc Ag " word has been given) (ii) the year of submission of dissertation, and (iii) the name of the Supervisor connected by colon.

Section 7

Here are recorded the Accession number of the document on its left-hand-side from 1st vertical and serial number of the entry on its extreme right-hand-side i.e. Nos. 578 & 4 respectively in above entry.

2 DICTIONARY PART

The Dictionary Part consists of following three indices. The entries in these indices either refer to the serial number of the entry or the class number, both available in the 'Classified Part'.

2.1 Author Index

Author Index consists of all the authors arranged in alphabetical order with surname first in capital and the initials in circular brackets. Each name refers to the serial number of the thesis in the Classified Part. The serial numbers of Ph.D. theses are marked with asterisk (*).

2.2 Supervisor Index

Names of the supervisors are arranged in strict alphabetical order on the analogy of the Author Index. The serial numbers of the entries of the theses guided or supervised by the individual are given against his/her name. The serial numbers of doctoral theses have been marked with asterisk (*).

2.3 Subject Index

Subject Index consists of class index headings and See entries and See also entries. All the Class Index headings have been derived by chain procedure and each one refers to the class number to be looked in into the Classified part, where under that Class No. the whole panorama of the subject and its sub-divisions will be found arranged in

classified order. For the sake of parsimony only essential class index headings have been taken into consideration. The See and See also entries are given to make the index more comprehensive and useful.

The terminology used by Dr. S.R. Ranganathan in his 'Colon Scheme of Classification' has been taken. But in case of 'Agriculture' and 'Animal Husbandry', we have prefered subject headings under the names of common usages, eg. tirda, urd, wheat, maize, cow, silkworm etc. and See references have been made from the family/genus/species names. Some examples are given below.

Bombyx Mori Linnacus
See Silkworm

Maize J385

Silkworm KZ711

Zea Mays, L
See Maize

That is by looking under 'Zea Mays, L' one is directed to see 'Maize', where one gets the class number J385. Thus by looking under J335 in the Classified Part one comes across all the documents that deal with different aspects of the crop 'Maize'. Similar is the case of silkworm, and others.

" BOOKS, FOR INSTANCE, NOT NEWSPAPERS SO MUCH, WOULD OBVIOUSLY HAVE A GREATER AND DEEPER INFLUENCE ON THOSE INDIVIDUALS WHO CAN TAKE ADVANTAGE OF THEM. THE CINEMA WILL NOT HAVE THAT EFFECT ON THEM, NOR THE NEWSPAPERS. IN THAT SENSE, BOOK READING IS AN INFLUENCE POWERFUL IN ITS QUALITY, PROVIDED ONE KNEW HOW TO READ AND WHAT TO READ. - NEHRU "
